HOW TO UPDATE YOUR SIGMAPLOT LICENSE USING PRODUCT KEYS OR A SITE LICENSE FILE (*.V2C):

You can update your SigmaPlot License using a product key or a site license file (*.v2c).

USING A PRODUCT KEY

If you select **Product Key**, you must be connected to the Internet.

1. After installing, right-click on the SigmaPlot icon on your desktop and select **Run as** administrator

You may need to enter an administrator username and password to run.

For network licenses, please contact your Systems Administrator.

2. After launching SigmaPlot, click the **Help** drop-down list on the right-hand side of the SigmaPlot desktop, and then click **License Status**.

If there is no license available, then the **SPW_14_LicenseUtility** dialog box appears. Click **OK**.

3. The **SigmaPlot 14.0 License Utility** dialog box appears. In that case, either you have a product key or '*.v2c' license file.

4. Under New License, select Product Key.

5. Enter the product key into the field and click **Apply License**.

The **SPW_14_LicenseUtility** dialog box appears to inform you that the license was updated successfully.

6. Click **OK** to launch SigmaPlot.

INSTALLATION INSTRUCTIONS FOR A *.V2C LICENSE FILE

Follow these instructions if you received a (*.v2c) license file for a site or standalone installation:

- 1. In SigmaPlot 14.0 License Utility dialog box, click Browse
- 2. Browse and then select the *.v2c license file that the SigmaPlot sales team should have provided you, and click **Open**.
- 3. Click Apply License.

4. Click **OK**.

You can repeat these steps to see the status of perpetual or time limited licenses.
