## SigmaPlot on a Netbook Computer

Netbook computer these days typically have a resolution of 1.024 x 600 pixel. With this reduced vertical resolution much of the workspace is used by the ribbons on top of the screen.

You can turn off the permanent display of the ribbons by clicking on the little arrow in the toolbar button row on top of the screen, and then select "Minimize ribbon.

	bolleiste für den Schnellzugriff anpassen	SigmaPlot - Notebook1				
Home Worksh	bolleiste für den Schnellzugriff unter der Multifunktionsleiste anzeigen					
	ifunktionsleiste minimieren					
Graph Worksheet Report Notebook	Insert into Create Office - PDF Manager Browser pane Report Cascade Coscade Coscade List					
Export	Graph Output Navigate Windows					

## Now the ribbon remains hidden ...

E M A E		SigmaPlot - Notebook1*
